

SÉRÉNIS by Nucléus

Guaranteed results

DEVELOP AN **EASY** FARM MANAGEMENT

High sanitary status

Management easiness

Piglet vigor

KEY POINTS

14 kg piglets
birth **WEIGHT**

16
functional
teats

3230 kg live
weight produced /
sow / year

2.29 FCR
18 - 105 kg
on production farms

DESCRIPTION

We deeply focus on **leg quality, rusticity**
and **maternal qualities**.

DATA

- 2600 GGP sows in LW and LR. 12 000 GP sows
- Genomic selection in LW and LR
- Innovation in genomic evaluation
- Work on maternal qualities

Results of mother of boars present in AIC

	Average parity	Born alive	Weaned
LW By Nucléus	3,8	17,5	14,8
LR By Nucléus	4,1	15,4	13,5

THE OPINION OF A FARMER

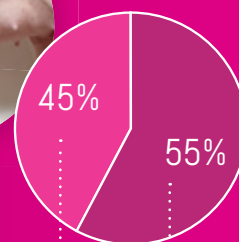

We already wean 34.8 piglets /
productive sow/year.
**Quality of piglets at weaning is our
leitmotiv** and one reality to produce
3220 kg / present sow / year.

SCEA Rouxel - Production farm

Breeding goal

Production criteria
ADG, FCR, LMP ...

Reproduction criteria
born alive, average birth
weight, homogeneity

SANITARY STATUS

Breeding farm with air filtration systems.
Each farm is regularly controlled for major
diseases in order to deliver the healthiest
animals : free of Mycoplasma
hyopneumoniae, Actinobacillus
pleuropneumoniae,
Atrophic Rhinitis, PRRS.
