

VIGOR by Nucléus

The reference in terms of growing and work quality

TO DEVELOP THE EASINESS OF FARM MANAGEMENT

-  Piglet vigor ★★★★★
-  Easiness of farm management ★★★★☆
-  High health status ★★★★★

KEY DATAS

VIGOR' BOARS

1120 g/d
of ADG
30 - 115 kg

67,2% of
lean meat
percentage

FARMS' RESULTS

Piglet
VIGOR

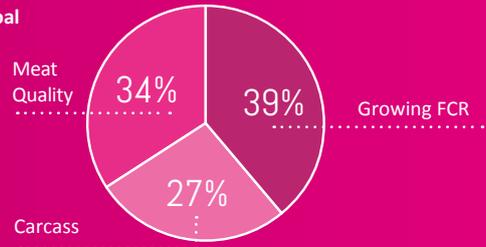

2,63 OF
GLOBAL FCR

DESCRIPTION

We strongly focus on **rusticity** and at the **genetic level** of animals in multiplication

Breeding goal

DATA

- 100 elites boars entering in AIC/year
- Only the 9 % best tested enter in French AIC

	Vigor by Nucléus
Age at 100 kg	128 d
Lean meat - Testing	67,2%

SANITARY STATUS

Each farm is regularly controlled for major diseases in order to deliver the healthiest animals : free of *Mycoplasma hyopneumoniae*, *Actinobacillus pleuropneumoniae*, *Atrophicans Rhinitis*, *PRRS*.

THE OPINION OF A FARMER

“

I use the VIGOR by NUCLEUS with the gilts SERENIS by NUCLEUS in order to add working easiness and technical/economical results.

In farrowing rooms, I do very few interventions and the % of loss during lactation on born alive is 11.5 %.

This combination give me also very good economical results on my last synthesis and permitted a good value on carcass :

24.8 pigs produced/sow/year, Global FCR of 2,63, slaughterweight of 94,77 kg, lean meat % of 61,3 % with a UNIPORC's bonus of 17,95 cts of euros
